

Dear Friends,

It's hard to believe five months have gone by since we purchased the CONUS Satellite Services Division and formed ARCTEK Satellite Productions, LLC. During that time we have been extremely fortunate to gain the support of some very high profile clients. We are grateful for the opportunity to use the experience we gained over 17 years of working at CONUS to continue to deliver quality satellite and production services to our valued customers. As owner operators we hold your trust sacred and we are committed to a service philosophy that always puts our clients first.

You've trusted us with some big ones in our very first quarter of operations! We helped CrossMedia/Golin Harris & Concerts West launch Celine Dion's new show at Caesars in Las Vegas. We also traveled to Texas to provide coverage of the shuttle crash for CBS News, to Florida for Superbike Racing for Chet Burks Productions and to North Carolina to feed the Family Circle Tennis Match to both domestic and international audiences. And at home in Minneapolis/Saint Paul we broadcast the Stanley Cup Playoffs for Canadian Broadcasting Sports and the NFL Draft for ESPN.

In addition to the high profile shows and sporting events, ARCTEK has helped non-profits and corporate America tell their story through Satellite Media Tours including tours for Twin Cities Public Television's *Right on the Money* and product launches for General Mills.

Our new Minneapolis field shop, insert studio and edit facility is just ten minutes from the airport and Mall of America. In addition to operating two satellite production trucks we continue to offer the following services: mobile downlinks, web casting, single and multiple camera productions, production management and satellite media tour technical coordination, video news releases, field producing and directing, planning and covering broadcast events, shooting b-roll and editing.

We hope you will continue to think of us to help you with your communications needs. Thank you for your continued support and we look forward to working with you in the future. Please check out our web site at www.arcteksat.com. If we can help you or you have any questions, please don't hesitate to call us at 612-623-1986.

Best Regards,

Todd Hanks
